

Document of Medical Necessity for Custom AFO (Molded to Patient)

Patient Name: _____

Diagnosis (es): _____

This patient requires an ankle foot orthosis custom molded to patient model because:

(check all that apply)

- The patient could not be fitted with a prefabricated AFO
- The condition necessitating the orthoses is expected to be permanent of longstanding duration (more than 6 months)
- There is need to control the ankle or foot in more than one plane
- The patient has a documented neurological, circulatory, or orthopedic condition that requires custom fabrication over a model to prevent tissue injury
- The patient has a healing fracture which lacks normal anatomical integrity or anthropometric proportions
